SECURITY STRATEGY OF COUNTRIES

Slovenian specialists have created economic projects useful for the country. We improved these projects so that the projects were global.

Implementation of the project is possible in Slovenia and the USA.

Also, Slovenia has a level of security in political, economic and power directions. 5% because in the EU and 40% because in NATO. This is a very risky level of security in a complex region.

We offer both at no additional cost. Slovenia will increase the level of security three

times.

These are not politicians' agreements at all. Which cease to operate when difficult conditions are created in a difficult region.

These are reliable options that have not yet been used. These options will increase the SECURITY of PLANET EARTH.

MIGRATION CRISES AND WARS

Nikki Haley comments on the events.

Politicians forgot about their citizens. They provoked a war. To implement the unconstitutional sale of land in Ukraine. They created an active phase of the war so that there would be no protests.

Nikki Haley warns. Who wants to buy land. Due to the killed CHILDREN in Ukraine. Should know. The parents of the murdered CHILDREN are already promising. Kill those who will cultivate the fields. Burn machinery and fields. After all, from the unconstitutional sale of land. Their CHILDREN died.

Nikki Haley is interested. Why Ukrainian politicians do not want to consider. Effective options for obtaining a LAND LEASE. As for pressure during negotiations. So for victory. After all, Ukraine has great opportunities for LEND-LEASE settlement.

Nikki Haley comments.

Democrats created and use war. To implement the unconstitutional sale of land in Ukraine.

Democrats created the migration crisis and are using it. To regulate aid to Israel and Ukraine as they see fit. This creates a threat to democracy and the existence of the United States.

The war in Ukraine must end with negotiations. Otherwise, some have weapons,

others are given weapons. To destroy each other. This creates a threat of spreading conflicts.

Why people were made hostages of circumstances. Forced to kill each other. They use language, nationality, faith, culture.

In 2029. The Republican Party will have a strong candidate. Nikki Haley is already considering proposals to put China in its place. Without weapons, sanctions and costs. And other CIA projects for US security.

It is still too early for Nikki Haley to participate in powerful CIA projects. DONALD TRUMP is more experienced in participating in projects. Increasing influence and territories.

FOR THE SAFETY OF PLANET EARTH
